Accuracy and executable coverage

Comparison at intended print size. View or print at 100%.

Full width: 164.5 mm

Single column: 78 mm

Full-width height: 90 mm
Single-column height: 116 mm

Figure area, before captions:
Full width: 148.1 cm²
Single column: 90.5 cm²

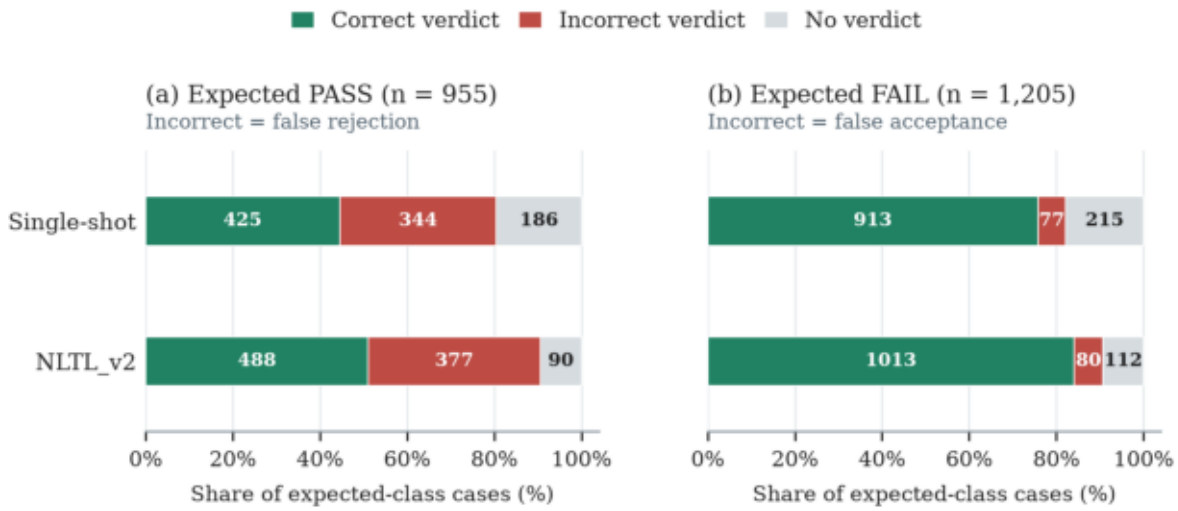

These widths match the current manuscript layout. Float placement and caption length also affect actual page use.

PDF artwork remains vector.
This comparison uses PNG previews.

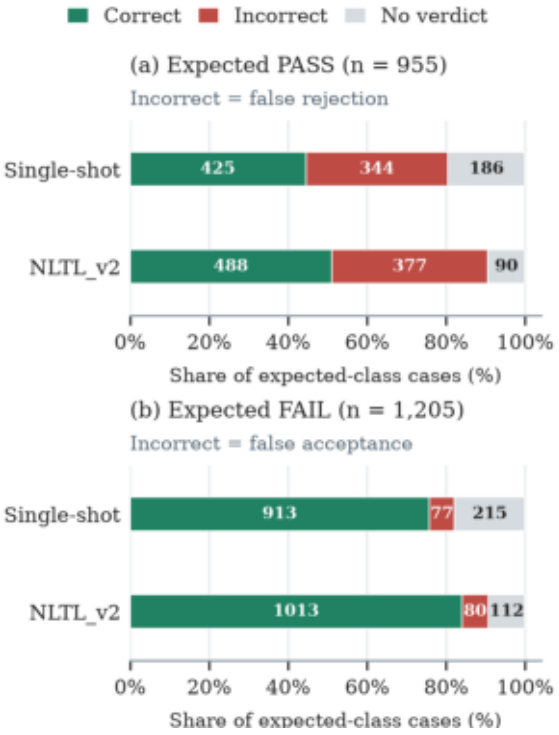

Expected versus observed outcomes

Comparison at intended print size. View or print at 100%.

Full width: 164.5 mm

Single column: 78 mm

Full-width height: 74 mm
Single-column height: 99 mm

Figure area, before captions:
Full width: 121.7 cm²
Single column: 77.2 cm²

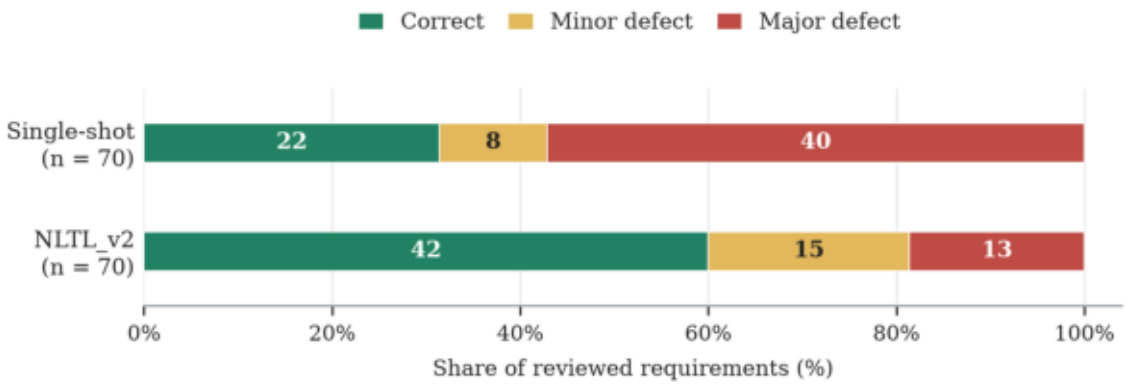

These widths match the current manuscript layout. Float placement and caption length also affect actual page use.

PDF artwork remains vector.
This comparison uses PNG previews.

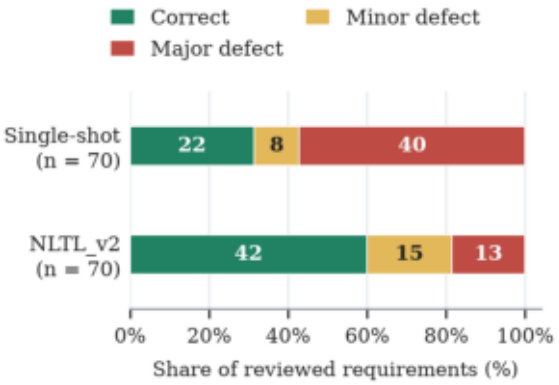

Manual-review verdicts

Comparison at intended print size. View or print at 100%.

Full width: 164.5 mm

Single column: 78 mm

Full-width height: 54 mm
Single-column height: 55 mm

Figure area, before captions:
Full width: 88.8 cm²
Single column: 42.9 cm²

These widths match the current manuscript layout. Float placement and caption length also affect actual page use.

PDF artwork remains vector.
This comparison uses PNG previews.
